SUMMARY

Platform engineer focused on **Docker**, **Kubernetes**, **Terraform**, and **CI/CD** on **AWS**. Builds reliable infrastructure and internal developer tooling, with a background shipping production services in **Python** and **TypeScript**.

EXPERIENCE

Software Engineer <i>Example Corp</i>	Jan 2024 to Present <i>San Francisco, CA</i>
– Migrated a legacy monolith module to a Dockerized service on AWS ECS, cutting deploy time from 40 minutes to under 8 minutes. – Automated builds and deploys with CI/CD, keeping a React/FastAPI platform serving 10,000+ users at 99.9% uptime. – Partitioned a monolith into distributed services over gRPC, improving deploy independence across three teams. – Raised test coverage and added CI checks that reduced production incidents on the owned service by 30%.	
Software Engineering Intern <i>Sample Labs</i>	Jun 2023 to Aug 2023 <i>Remote</i>
– Migrated a legacy service to Docker and Kubernetes, cutting deploy time from 20 minutes to 3 minutes. – Added Docker based local setup and integration tests in CI/CD, shortening onboarding for new contributors.	

PROJECTS

- **Example Project (Open Source)** | Event driven app on **AWS** (Lambda, S3, DynamoDB) with **Next.js** and **PostgreSQL**.
- **Sample Tool (Personal)** | Built a **FastAPI** tool with **Redis** queues and sandboxed **Docker** execution.

SKILLS

DevOps & Infra: Docker, Kubernetes, Terraform, GitHub Actions, CI/CD, AWS (Lambda, EC2, ECS), Nginx
Cloud & Data: AWS, S3, DynamoDB, PostgreSQL, MySQL, Redis
Languages: Python, Bash, TypeScript, Java, SQL
Backend: FastAPI, Node.js, REST, GraphQL, gRPC, microservices

EDUCATION

Example University <i>Bachelor of Science in Computer Science, GPA: 3.9 / 4.0</i>	San Francisco, CA <i>Aug 2020 to May 2024</i>
– Distributed Systems, Operating Systems, Databases, Algorithms, Software Engineering	

LEADERSHIP & AWARDS

• Computer Science Club, President Led a team of board members; organized hackathons and technical workshops. • Awards: Hackathon Winner, Dean's List	Sep 2022 to May 2024
