SUMMARY

Early career **cloud engineer** who builds reliable, cost efficient infrastructure on **AWS**. Experienced deploying containerized services to **ECS** and **EC2**, automating delivery with **CI/CD**, and managing infrastructure as code with **Terraform**. AWS Certified Cloud Practitioner with a focus on reliability and clean automation.

EXPERIENCE

- Software Engineer**
Example Corp

Jun 2024 to Present
San Francisco, CA

 - Migrated a legacy monolith module to a **Dockerized** service on **AWS ECS**, cutting deployment time from 40 minutes to under 8 minutes.
 - Built and tuned **CI/CD** pipelines with **GitHub Actions** that automated build, test, and deploy across environments.
 - Raised backend test coverage from 55 percent to 88 percent with 200+ tests, reducing production incidents by 30 percent.
 - Optimized **PostgreSQL** queries and added caching to cut average response time by 35 percent under steady production load.
- Software Engineering Intern**
Sample Labs

Jun 2023 to Aug 2023
Remote

 - Built a **Python** data ingestion pipeline that processed 2 million records per day at 99.9 percent reliability.
 - Added **Docker** based local setup and integration tests that shortened onboarding for new contributors.

PROJECTS

- Example Cloud App** | Event driven app on **AWS** using **Lambda**, **S3**, and **DynamoDB** with a **TypeScript** backend.
- Sample CLI Toolkit** | A **Python** command line toolkit for batch file processing, packaged for pip with 90 percent test coverage.

SKILLS

Cloud & Infra: AWS (Lambda, EC2, ECS, S3), Terraform, Docker, Linux, Nginx
DevOps & CI/CD: GitHub Actions, CI/CD, Docker, Bash
Languages & Data: Python, TypeScript, SQL, PostgreSQL, Redis, DynamoDB

EDUCATION

- Example University**
BS Computer Science, GPA: 3.9/4.0

San Francisco, CA
Aug 2020 to May 2024

 - Distributed Systems, Operating Systems, Databases, Algorithms

CERTIFICATIONS

- AWS Certified Cloud Practitioner**, Amazon Web Services 2024

LEADERSHIP & AWARDS

- Computer Science Club, President** Sep 2022 to May 2023
Led a student club of 80 members and organized 10 technical workshops, growing event attendance by 40 percent year over year.
- Awards:** Hackathon Winner, Dean's List
